

## LITTLE HOUSE QUILT 2010 BLOCK OF THE MONTH

Hello everyone,

It is time to start a new Block of the Month. This one is a little quilt that doesn't take a big commitment of time or fabric. It is just something to have fun with, since we have a very busy year this year. The size of this quilt is 27" by 33". It is made up of very simple blocks, so don't be intimidated by the size. There is no book or pattern to buy (*this pattern is out of print and I was given permission to recreate it for our guild by the author*).

We will begin working on the quilt as the "Activity" for the February meeting. We will start with the "starry sky" section of the quilt.

The following are the fabric requirements for the **whole quilt**. Supplies for February's meeting are at the end of this document.

### **Fabric requirements for the whole quilt:**

This quilt is basically made from scraps. This would be fun to make with a 6" charm pack if you have one.
